

Zinc Alloy Retractable Blade Cutter

This heavy-duty cutter knife features a durable zinc alloy construction. The retractable blade mechanism enhances safety by allowing the blade to be securely stored when not in use.

Product Overview

Heavy-Duty Zinc Alloy Cutter

This heavy-duty retractable blade cutter is engineered for durability and longevity, featuring a robust zinc alloy construction. Designed with an ergonomic handle, it ensures a secure, comfortable grip to reduce hand fatigue during extended professional use. The retractable blade mechanism enhances safety by allowing for secure storage when the tool is not in operation, making it a reliable choice for cutting cardboard, plastic, and various other materials.

Construction & Design

Body Material	Zinc Alloy
Handle Design	Ergonomic

Features & Safety

Blade Mechanism	Retractable
Safety Features	Retractable Blade, Secure Storage

Applications

Suitable Materials

- Cardboard
- Plastic
- General Purpose
