

Zinc Alloy Retractable Blade Utility Knife

This utility knife features a robust zinc-alloy body for enhanced strength. Designed for precision cutting, the knife is suitable for cutting cardboard, paper, and plastic.

Product Overview

Professional Grade Utility Tool

This retractable utility knife is engineered with a robust zinc-alloy body to provide superior strength and long-term durability in professional settings. Featuring an ergonomic handle design, it ensures a secure and comfortable grip for extended cutting tasks. The quick-change blade mechanism is designed to minimize downtime, making it a reliable solution for precision cutting of cardboard, plastic, and paper.

Technical Specifications

Body Material	Zinc Alloy
Model Identification	No.218
Key Features	Retractable Blade, Ergonomic Grip, Quick Blade Change, Durable Construction

Applications

Suitable Materials

- Cardboard
- Paper
- Plastic

Ideal For

Professional Use • DIY Projects
