

Zinc Die-Cast Window Latch

This window catch is made from zinc die-cast for durability. It is designed to securely lock windows and comes in various finishes.

Product Overview

Robust Window Security

This zinc die-cast window catch is engineered for secure and reliable window closure. Its robust construction ensures long-term performance, while the corrosion-resistant finish provides durability in various environments. Designed for easy operation, this latch is a versatile solution suitable for a wide array of window types.

Technical Specifications

Key Features

- Robust die-cast construction
- Corrosion-resistant finish
- Reliable locking mechanism
- Easy operation design

Article Number	WC001
Available Finishes	PB, CP, AB
Material	Zinc Die-Cast
